

GABE GARSHOWITZ EATS AT KIVA'S

***Psst!** Want a verbal roller coaster ride? Read *The Dead Don't Weep* by Alvin Abram. From the low of bantering detectives, it rises to the heights of a who dunnit with the background of Toronto and beyond, as you have never seen it in print before. After a deceptive plunge of missed opportunities, it rises again through diverse human behaviour and discovery by highly fleshed-out characters. Wait! At the end of the ride there is a promise of a literary lollipop.*
